STATEMENT OF COMPANY QUALITY POLICY

Structural Renovations Limited specialises in the repair and renovation of all types of structures, including concrete, brickwork and timber in London and the Home Counties.

The quality policy of Structural Renovations Limited is to carry out its business in a manner that promotes customer satisfaction. The Company has established a quality system which has been derived in conjunction with all management/operational functions and which is described in this Quality "Strategy" Manual, QMS1. The quality system is designed to ensure that clients' interests are fully recognised through the planned and controlled execution of all activities. Quality assurance is the individual responsibility of all staff that is required to ensure that quality is not compromised in the performance of their various duties.

The service scope for Structural Renovations Ltd is: The structural repair and restoration of buildings infrastructure using specialist materials & techniques

The quality system is based upon the requirements of the British, European and International Quality System Standard ISO 9001:2008. It is structured and controlled by the Quality Manager who is responsible for verifying its full and effective implementation and improvement by monitoring objective evidence of quality.

CRAIG FARRAND
Managing Director
